

Axl Cabunoc

Full Stack Software Engineer | AI Automation

Cebu City, Philippines (UTC+8) | +63 963 961 5197 | daxlax5@gmail.com | linkedin.com/in/axlcabunoc | github.com/daxlax5

Summary

Full stack software engineer shipping healthcare and enterprise systems at Alliance Software across NestJS, Laravel, Angular, Java, PostgreSQL, MongoDB, and AWS. Also builds AI automation and agent systems with n8n and Claude, running in production for clients in the US and New Zealand.

Experience

Software Developer, Alliance Software Inc. | June 2025 to Present | Cebu City

- **mWell Hospital Information System, billing and cashiering:** Built HMO and PhilHealth statement of account generation from scratch, added seller identity details across invoices, receipts, and statements in Jasper Reports, implemented immutable transaction logging with a PostgreSQL trigger, and wrote a Playwright end to end suite for cashiering flows. Laravel, PHP, Angular, TypeScript, PostgreSQL, Jasper Reports, Docker, Playwright
- **mWell patient platform:** Building inbound HMO letter of guarantee APIs for an insurance partner in a NestJS Nx monorepo with Keycloak auth, using an environment gated mock adapter to test every response path before partner credentials existed. NestJS, Nx, TypeScript, MongoDB, Keycloak, Docker, pnpm, Insomnia
- **SIRIUS, POS and SAP middleware:** Started as a code based unit tester, then built SAP facing APIs and a batching and pagination procedure that kept performance stable across hundreds of thousands of records. Java, Spring Batch, JUnit, Postman, Amazon Redshift, S3, Lambda
- **WITS data tools:** Delivered three full rebuilds for an enterprise client: a Python encryption utility with a Pytest and Flake8 quality pipeline, a C# dataset comparison tool, and a Java log checker. Python, Pandas, Polars, C#, Java, Spring Boot, Jacoco, PostgreSQL, Amazon Redshift

AI Automation Engineer, Independent Practice | September 2025 to Present | Remote

Project and retainer work for clients in real estate, construction, coaching, and content.

- **AI agent security audit and infrastructure migration (US real estate group, ongoing contract):** Audited a self hosted AI agent and its tool connections, migrated it from a Windows laptop to a headless Ubuntu server with Tailscale and SSH access, rotated exposed credentials, and designed a tiered permission model for connected apps. Ubuntu, Linux, Tailscale, SSH, Composio, n8n, Supabase
- **AI proposal pipeline (in production, New Zealand construction client):** Built a staged Claude agent with Python scripts that turns a project brief into a reviewed commercial proposal, with SHA-256 evidence registers, parametric SVG drawings, PDF assembly, and a release QA gate. Claude skills, Python, SVG, PDF generation
- **Lead qualification with human approval (in production):** Enriches GoHighLevel contacts through Apollo, scores them with four parallel workers, and routes a structured Claude verdict to Slack for one click approval that writes back to the CRM. n8n, GoHighLevel, Apollo, Claude, Slack
- **Instagram lead generation and outreach (in production):** Scrapes posts, comments, and profiles through Apify, joins and filters them in JavaScript, then qualifies leads and writes personalized openers with LLMs. n8n, Apify, JavaScript, GPT-4.1 mini, Gemini, Perplexity
- **Content asset generator (in production):** Turns GPT outlines into structured documents delivered as styled HTML email, replacing a polling based PDF step. n8n Cloud, OpenAI, JavaScript, Gmail

Web Developer Intern, Encloudment | 3 months | Remote

Skills

Languages: TypeScript, JavaScript, Python, Java, PHP, C#, SQL, Bash, HTML, CSS

Frameworks: NestJS, Laravel, Angular, React, Spring Boot, Spring Batch, Flask

Databases and cloud: PostgreSQL, MySQL, MongoDB, Amazon Redshift, Amazon S3, AWS Lambda, SQLite, Firebase, Supabase

Infrastructure and auth: Docker, Docker Compose, Linux (Ubuntu), SSH, Tailscale, Keycloak, Nx and pnpm monorepos

Testing and tools: Playwright, JUnit, Pytest, Jacoco, Postman, Insomnia, Git, Azure DevOps, Bitbucket, Jira, Jasper Reports, Claude Code

AI and automation: Claude and OpenAI APIs, AI agents, RAG and vector databases, structured outputs, n8n, Apify, GoHighLevel, Apollo, Airtable, REST APIs and webhooks

Education

BS Computer Engineering, University of Cebu Lapu-Lapu and Mandaue | 2021 to 2025

Projects: RFID credit system (Flask, Arduino, Raspberry Pi), Android ordering app (Java, Firebase), OpenAI doc generator (Python)
